

Engineered
for durability.

LUMBA™
by Sebel™

Advanced, sustainable design

LUMBA™ is the next generation Progress chair, retaining the original strength and durability with improved ergonomics, engineering and contemporary aesthetics.

Offering exceptional comfort and support, LUMBA™ allows for longer focus and engagement with its wide seats and flexible lumbar support for extended comfort.

LUMBA™ is engineered for durability with a 10-year warranty. The injection-moulded polypropylene seats offer strength and flexibility, while aluminum legs reduce weight and enhance stability, integrated into the mould for added strength.

Its innovative design meets the evolving needs of any venue. Reliable, sustainable quality—LUMBA™ leads the way.
