

Ned Stool

Bringing fun and functionality into classrooms, the Ned Stool is the perfect companion for students. Not only is it robust and durable, but it's also lightweight and stackable – making it easy for students to move around the classroom, library or breakout space. This means that they can create spaces for individual time, small group learning or classroom reading time.

Tried and tested, the Ned Stool can handle the tough love from kids both indoors and outdoors. Ned is stacks of fun wherever and however kids learn. The stool is a trusted buddy that can go anywhere with students and teachers depending on the activities they're doing.

The Ned Stool is made from UV stabilised post-consumer recycled polypropylene.

Grab handle, allowing students and teachers to easily move the stool around the room

Footrail cut-out, for smaller students to sit comfortably

Lightweight design making it easily **stackable**
