New Colour Range!

Introducing new biophilic colours in recycled plastics across our seating range!

Our sensory-friendly range creates an inclusive space for all students.

Variety of fabric and vinyl options to match new biophilic colour range in our recycled plastics.

Mix modular lounges and movable, writable tables to shift from quiet study to shared work in minutes.

New Product Launch!

Lumba™ is a versatile school chair used within classrooms, staff rooms, libraries and halls. It offers customisable comfort with biophilic-inspired colours, optional upholstered back and seat pads, arms or links.

Explore our library range.

Make room for reading, study and connection. Our modular furniture moves with the day - comfortable, durable, and easy to re-set, so your library and breakouts work the way students actually learn.

Design-conscious and functional storage solutions that are perfect for libraries, classroom reading zones, and admin & office spaces.

Colour combinations inspired by nature.

Better colour, better choice – Each palette is designed to enhance wellbeing, support harmony, and meet the demands of dynamic learning environments – while embracing sustainability through our recycled plastic range.

- Fabrics in citrus, kiwi or lime

Grounded. Restorative. Refreshing.

Made with recycled plastics

THE NEW LUMBA™

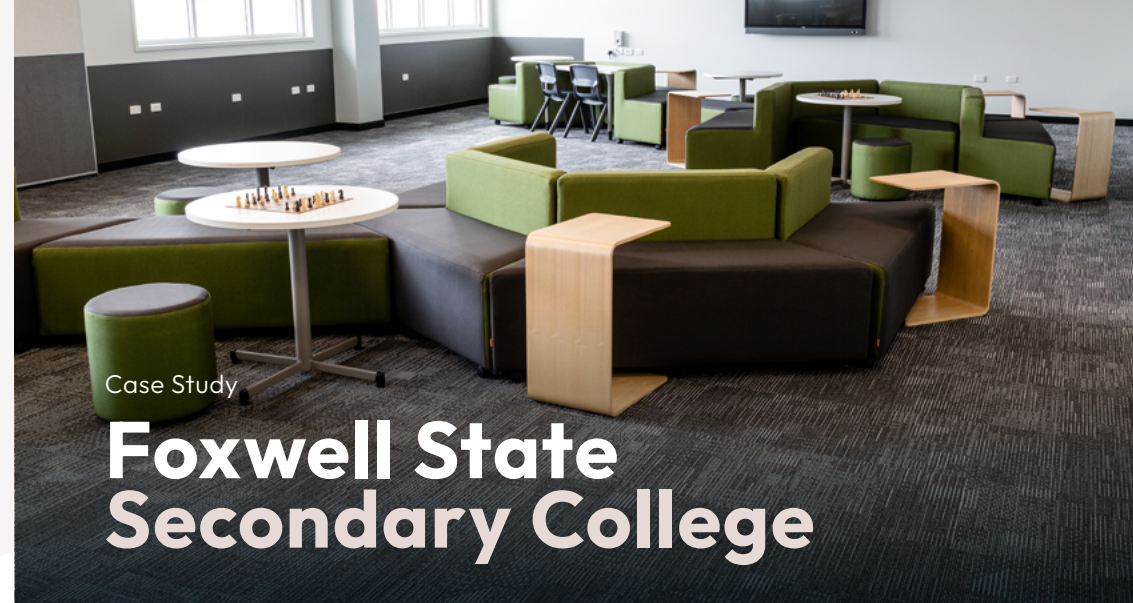

Beachcomber Kiwi

Tessuto Verde

Comet Wasabi

Karlu Bush Lime

Pacifica Jungle Vine

Case Study

Foxwell State Secondary College

The leadership team at Foxwell wanted learning spaces that went beyond aesthetics. They needed innovative, modular furniture solutions that would not only look great but also provide the flexibility to adapt to evolving learning styles and activities.

Working in collaboration with Foxwell and the architects, Sebel developed a furniture plan that balanced functionality with style. Key spaces were reimaged which included the Learning Hub.

The Learning Hub was designed as the heart of the school, this inviting space allows students to socialise, collaborate and study. Sebel's modular soft seating system was chosen for its ability to be reconfigured easily, supporting both group work and individual learning. Integrated bookcases were added to complement the space, creating a resource-rich hub for exploration.

The result is a suite of learning and working environments that are as functional as they are inspiring. The modular furniture solutions empower Foxwell students to collaborate and create.

Foxwell State Secondary College were after innovative but functional spaces and was open to ideas for design and layout. Sebel's main focus was creating an inviting Learning Hub where students can come together to explore, socialise and learn. **Sebel modular soft seating has been carefully designed to work together in a 'system' or pieces offering the ultimate in flexibility and modularity.**

Our integrated bookcases are a complementary addition making them perfect resource centres and student hubs. Style of products, quality of finishes and range of textures and fabrics were important to Foxwell. Using our flexible and modular furniture as a tool, we created functional and great looking learning spaces that stir creativity and encourage collaboration.

It was a real delight seeing students and teachers enjoying their new spaces.

Educational furniture for reading, study and connection

Designed for reading, research and time-out.
Comfortable and built for real school life.

The right furniture supports better learning.

Well-designed furniture shapes how students sit, move, think and connect. From ergonomic chairs to flexible table setups, the right pieces help support learning outcomes, boost comfort and cater to diverse classroom needs.

Furniture with a family tree. New chairs. Made from old.

Today, we're not just supporting students, we're supporting the planet too – with furniture made from recycled plastics and a program that lets schools return their old chairs for responsible recycling.

Every Recycled Postura Max® prevents 3.8kg of plastic waste from entering landfill.*
