

C Leg Table

The perfect school table with lots of room for your laptop!

The C Leg Table with Sebel Performance Edge™ has been engineered and designed for the school of the future

FEATURES

- > Sebel Performance Edge™ – Tamper resistant injection moulded polypropylene edge
- > Light in weight for easy manoeuvrability with excellent stability and durability
- > All welded steel frame finished with a durable powder coat
- > Open frame design allows rows to be placed together into clusters for collaborative learning or use as a stand alone table

GET THE EDGE

Performance Edge™ tabletops use a unique patented design tapered edge which is ultra-comfortable and perfect for extended use. The Performance Edge™ tapered edging reduces pressure on students' forearms caused by leaning and writing, making them the most comfortable tables around.

The Performance Edge™ tabletops use a superior hard-wearing material compared to regular rigid edging, and are virtually 'pick proof' so the edges don't delaminate or peel off easily.

The unique edging not only enhances user comfort, but it also reduces damage done to walls and other furniture whilst moving tables around to change between learning modes.

Tested to Static Load of 110kg

OPTIONS

- > Single or dual options available
- > Available with or without drawers
- > Drawers come in regular or large (deeper), and are available in white
- > Wide range of laminates for table tops available
