# *TWIST 'n' LOCK*<sup>™</sup>

Height Adjustable Collaborative Learning Tables

# The Innovative Twist 'n' Lock™ Legs

## Twist 'n' Lock™ Legs. Innovative, durable, easy to use.

No more broken pins, no more counting holes and no more wasted class time. The true brilliance of the Twist 'n' Lock™ Height Adjustable Tables, lies in the patented leg design. The pin-less height adjustment grooves unique to these tables makes adjusting table heights a breeze. And with 6 adjustment heights, from 520 mm to 760mm, the flexibility is endless.

The simple Twist 'n' Lock™ design, makes adjusting the table height as simple as it sounds – just twist the leg to unlock it, move it to the desired height using the numbers on the leg, then twist the leg to lock it into place.

Not only are they easy to use, but these legs are ultra-durable, meaning more time spent teaching and learning! The legs are also available in bright colours, so add a splash of fun to the classroom or colour code the tables for different modes of learning.

## Orio Table

The popular and versatile shape of the Orio table allows you to create a variety of group and individual settings suitable for your specific learning modality.

**Top:** 900mm or 1050mm diameter

**Edge:** Rigid or Performance Edge™  
1050mm available in Rigid Edge only

## Targeted Teaching Table

The Arc and Semi tables (Targeted Teaching Tables) are designed for student-teacher collaboration. For group learning, combine two of the same tables to form a circle or football shape. Utilise your environment and create learning hubs or break up long corridors.

**Top:** 1800 x 720mm (Arc), 1800 x 900mm (Semi)

**Edge:** Rigid Edge only

## Crescent Table

A flexible student table to suit a variety of activities and learning styles. Configuring the Crescent tables into a cluster, encourages student communication, engagement, problem solving, and lateral thinking. The Crescent table can transform any learning space as a standalone or collaborative setting.

**Top:** 1350 x 600mm depth

**Edge:** Rigid Edge only

### Cinque Table

The versatile shape of the Cinque table is suitable as a standalone or in a cluster and can be instantly transformed for 'Think-pair-share' learning, and create a variety of settings suitable for specific learning modalities.

**Top:** 785 x 1110mm  
**Edge:** Performance Edge™ only

### Square Table

The Square table is the perfect standalone table for independent learning and larger group settings. This classic square shaped table can be clustered with itself or any Twist 'n' Lock Height Adjustable Table with a 600mm depth.

**Top:** 600 x 600mm  
**Edge:** Rigid or Performance Edge™

### Rhythm Table

The Rhythm table uses an intelligent wave design to fit together to create clusters of tables for student learning. The curved design gives students their individual learning space whilst preserving classroom space.

**Top:** 640 x 640mm  
**Edge:** Rigid Edge only

### Trapezoidal Table

The versatile Trapezoidal table is a unique learning table ideal for the classroom, library or small group settings. This table can be used as a standalone single table or arranged in clusters to promote group learning.

**Top:** 1200 x 600mm  
**Depth:** 520mm  
**Edge:** Rigid or Performance Edge™

### Stingray Table

The Stingray table is the most configurable and versatile table yet. The Stingray supports pedagogy and creates a fun, collaborative and modern learning environment. Designed to fit six students in a cluster of three tables, it is also great for close distance group collaboration.

**Top:** 600 x 600mm  
**Edge:** Rigid Edge only

### Round Table

This Round table fits perfectly into the Orio table bites, to form flower shaped learning clusters, allowing you greater flexibility in classroom configurations.

**Top:** 900mm or 1050mm diameter  
**Edge:** Rigid Edge only

### Rectangular Table

Accommodating dual student study, this classic rectangular shaped table can be clustered with itself, Square or other tables, to create multiple interesting and flexible configurations.

**Top:** 1200 x 600mm  
**Edge:** Rigid or Performance Edge™

**Configure your own!**

Performance Edge™ tabletops use a unique patented designed tapered edge which is ultra-comfortable and perfect for extended use. The Performance Edge™ tabletops use a superior hard-wearing material compared to regular rigid edging, and are virtually 'pick proof' so the edges don't delaminate or peel off easily. The unique design not only enhances user comfort, but it also reduces damage done to walls and other furniture whilst moving tables around to change between learning modes. The Performance Edge™ tapered edging reduces pressure on students' forearms caused by leaning and writing, making them the most comfortable tables around.

Patented tapered edge

Get the **EDGE**

Inject colour with our vibrant Performance Edge™ trim options and a wide range of laminate tops, including writeable finish. Add Twist'n'Lock™ legs to match the bright Postura chair colours.

### Performance Edge™

Comes in 5 colours

Black    Aqua    Jaffa    Pine    Lime Grape
