Why Sebel

Five simple reasons

1. Australian Made
2. Recycled & Recyclable Plastic
3. Circular manufacturing
4. Designed & Made to Last
5. Original & Authentic

Made in Australia, since ages ago.

We have a talented team seriously committed to what they do. Many have been with us for decades, and we're all proud to be Australian producers of high-quality, Australian furniture.

We take immense pride in being an integral part of the Australasian furniture industry with representation on the board of Australian Furnishing Research and Development Institute (AFRDI) and a member of the Australian Standards Committee for furniture for over 30 years. There's a deep-rooted knowledge right across the business and it's applied in everything we do to make our products that much better, more effective and with longer lasting value.

Approved Suppliers

QLD Government under the QED 104526 SOA
NSW Government under the NSW Office
and Education Furniture Contract 771
VIC Government under the VIC Schools,
Office and Education Furniture Panel VIC ITS01

Made from Recycled Plastic

Every Recycled Postura Max® prevents 3.8kg of plastic waste from entering landfill.*

Recycled & Recyclable Plastic

We're on a mission to reduce plastic waste.

From responsible product design to materials selection, circular economy programs and waste reduction, we're pioneering ways to positively impact our people and the world.

* Based on a Postura Max size 6 chair.

3

Circular Manufacturing

Furniture with a family tree.

New chairs. Made from old ones.

RePlay is our furniture recycling program. It's our commitment to reducing plastic waste by taking back well-loved Sebel chairs and giving them a second life as newly recycled chairs.

4

Designed & Made to Last

Advanced engineering, quality manufacturing.

From the designs we create, the materials we use, the built-in engineering strength and service to you, quality will always come first.

With our very own NATA-certified testing facility, you can rest assured that all our products are tried and tested to survive the toughest of environments.

5

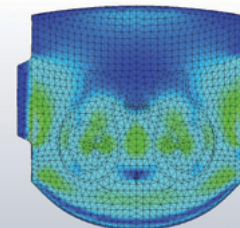

Original & Authentic

Designed, from the bottom up.

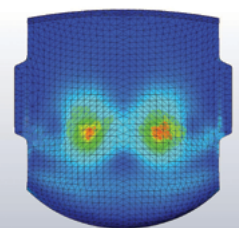

Imitation is the sincerest form of flattery.

We're proud of our designers, we're even proud that imitators want to copy them. While our products are designed & made in Australia to leading standards, you'll find plenty of knock-offs made with cheap brittle plastic and poor ergonomics. You see at Sebel, science shapes our designs.

OUR CHAIRS

IMITATORS

Chairs & Stools

Loved by over 11,000 schools and more than 5 million students since its creation, the Postura® is one of the biggest-selling classroom chairs in the world.

From classroom chairs to lab and STEM room stools, our range of iconic seating has been designed, tested and manufactured locally to the highest International and Australian standards.

Hot Stamping

Transform standard furniture into branded assets. Hot stamping applies logos, names, and custom designs directly onto chair and stool surfaces — permanently, professionally, locally.

Your Brand, Your Way

School crests, company logos, council insignia, team names — anything you'd put on a business card can go on your furniture, front and back. Heat-fused directly into the surface, the imprint won't peel, fade or wear away. Stamped in Australia with precision tooling.

Learn more

Postura[®] Max

Size guide

The right chair size directly affects a student's posture, comfort, concentration and long-term skeletal development. Use the colour-coded size dot on the backrest of each Postura Max[®] to quickly identify the correct size for your students.

Our chairs have a colour-coded size identifier on the backrest.

Size 2 | Purple Dot

Tables & Desks

Designed to combine. Built to last.

Whether it's a classroom, a boardroom, or somewhere in between, Sebel's tables and desks are built to work as hard as the people using them.

Designed and made in Australia with solid engineering and quality materials, our range covers everything from student desks and adjustable-height tables to collaborative workstations.

Height-Adjustable

Twist'n'Lock™

Six height settings, no tools, no pins:
tables that work as hard as you do.

Our patented Twist'n'Lock™ leg system easily adjusts
across six heights to suit students from prep to senior
— fast to reconfigure and built to handle
daily classroom use (like all our products).

Twist'n'Lock™ Semi Table

Performance Edge™

Designed to take the pressure off.

Performance Edge™ is Sebel's patented, moulded-in edge detail — available on select tables for schools that want an extra layer of comfort and durability. It softens the line between desk and elbow, reducing the pressure on forearms caused by hours of leaning and writing, so students stay comfortable for longer.

It won't peel, chip or pull off — because there's nothing to pull. The edge is moulded directly into the table, not glued on as an afterthought. That's why it's backed by a lifetime warranty.

Storage & Display

Adaptable by design.

Smart storage does more than hold things — it shapes how a space works. Our range of modular storage and display units can be arranged and rearranged to suit teaching materials, personal storage, bag storage and everything in between.

Designed to integrate seamlessly with our Smart Softies™ range, our bookcases and storage units are built for libraries, classrooms and common areas that need to flex as often as the people using them.

Student Wellbeing

mindfull Collection

Create more inclusive classrooms with furniture designed for calm, connection and self-regulation.

The Mindfull™ Collection helps create quieter, more focused learning environments. Designed with educators and wellbeing experts, every piece combines gentle design with thoughtful functionality — supporting students who learn differently and helping them feel included, settled and ready to engage.

It's an approach that aligns closely with what drives us at Sebel: furniture that puts people first, supports educators, and makes a real difference in the spaces it occupies.

Fixed Seating

Built for the moments that matter.

Suncorp Stadium. Sydney Cricket Ground. School halls.
Lecture theatres. Performing arts centres.

For over 75 years, Sebel has been the trusted choice
for venues that demand comfort, strength and
durability without compromise.

**Our Viva, Encore and Podium systems are built
for the spaces where every seat matters.**

Fixed Seating

Viva

Our high performing seating products have been the go-to choice for hundreds of stadiums, grand stands, lecture theatres and halls around the globe.

The clever modular design means there is a model of Viva to suit any application, from general admission seating right up to premium seating.

Viva's unique patented design simplifies the installation process and eliminates the worry and cost of ongoing maintenance associated with spectator seating.

Viva offers a variety of options

Backrest styles

Available in different backrest styles to complement venue design requirements.

Arm rests and cup holders

Optional polypropylene armrest with cup holder is perfect for premium seating areas. Design is reversible for front or rear mounting.

Various mounting options

Suits riser and tread mount platforms. Perfect for any application, from indoor arenas, stadiums and educational facilities.

Row and seat identification

Seat numbering on front lip and row lettering available.

Viva layout dimensions

	Seat centres (mm)	Tread depth minimum (mm)	Width (mm)	Depth (mm)
Vantage Fixed Rail Vantage	460, 480, 500, 520	800	440	320
Vantage Fixed Rail with armrests	Minimum 510	840	505	490
Vantage / Variable Frame with cup holders	Minimum 515	840	510	425
Variable Rail Frame with A4 size tablet	Minimum 530	835	530	490
Variable Rail Frame with A3 size tablet	Minimum 530	900	530	490

Fixed Seating

Encore

Encore seating has been designed to set it apart from conventional theatre and auditorium seating systems.

Encompassing state-of-the-art manufacturing technology, Encore is designed for locations demanding improved seating concepts. Sensible and necessary options combined with Encore's comfort, durability, minimal maintenance and ease of installation will satisfy the highest expectations of clients, architects and designers.

Encore offers a variety of options

Backrest styles

Available in two different backrest heights to complement any venue design requirements.

Folding tablet arms

Generous 'anti-panic' tablet arms make it the ideal choice for lecture and auditorium seating.

Various mounting options

Suits riser and pedestal mount platforms. Perfect for any application, from indoor arenas, concert halls, conference centers, lecture rooms and corporate boxes.

Free standing units

When extra seating is required, removable, free-standing units can be positioned on flat floor areas – quickly and efficiently.

Encore layout dimensions

	Height (mm)	Depth (mm)
Encore high back	865	650
Encore grand back	980	670
Encore high-end with tablet	865	770
Encore grand high back with tablet	980	790

Fixed Seating

Podium

Podium offers the highest quality spectator comfort, strength and durability like no other!

Originally purpose built and designed for the 2000 Sydney Olympics, our Podium took out the Australian Design Award. Since then, it has featured in hundreds of stadiums and auditoriums around Australia, and across the globe.

Podium offers a variety of options

Backrest styles

Available with headrest options for extended height backs.

Various mounting options

Suits riser and tread mount platforms. Perfect for any application, from indoor arenas, stadiums and educational facilities.

Row and seat identification

Seat numbering on front lip. Row letter and row end ID illumination available.

Folding tablet arms

Generous 'anti-panic' tablet arms make it the ideal choice for lecture and auditorium seating.

Podium layout dimensions

	Seat Centres (mm)	Tread Depth Minimum (mm)
Podium	460	800
Podium with arms	510	800
Podium with A4 size tablet	530	850

RePlay Recycling.

New Chairs, made from old ones.

RePlay is our in-house furniture recycling program that gives your old Sebel chairs a second life.

We collect your end-of-life chairs, chip them down, and mould them into brand new recycled chairs.

Less landfill. More chairs.

Learn more

**Over 460 tonnes of plastic.
Out of landfill. Every year.**

That's what we could divert from landfill annually if all Postura chairs were returned through RePlay. It starts with your school, your office, your organisation.
